

Lineup

An extensive lineup that meets various customer needs. Select the most suitable model according to your application, budget and operation.

■ Polyphase System

A single-phase 3 wire system can be built with combination of 2 same single-phase models. And a three-phase system can be built with combination of 3 same single-phase models. Multiple units can be connected by system connecting cables, and a single unit can be used as a single phase power supply as well.

DP060S×3
Three-phase 18 kVA

DP0120S×3
Three-phase 36 kVA

DP480LS×3
Three-phase 144 kVA

■ Customization

When power is needed between models of the line-up, we reduce power units to provide a solution. Also, we support power increase by expansion of power units. We provide solutions in accordance with budget and equipment expansion plan. Contact us for details.

Custom example

Single-phase 24 kVA

Single-phase 36 kVA

* Export permission of Japanese government is needed
